

Paper View

- Switch to eraser mode to erase (fill in holes) notes.
- Undo mode undoes the last added note.
- You can play and listen to music through the Play/Stop Sequence.
- When Snap to Grid mode is turned on, notes are entered to fit the grid, and when off, notes can be added in any horizontal position regardless of the grid position.
- Expand Paper lets you add as many notes as you want. On the other hand, Shrink Paper lets you cut out extra sheet music you don't need.
- You can change the BPM and Incomplete Measure whenever you want.

Detailed Menu for Paper

- You can edit paper files through the Edit Paper menu.
- You can change and update the paper's metadata.
- Listening mode lets you focus entirely on paper listening and music.
- The share menu allows you to save the file to another paths, or share it with others by sending it by mail or AirDrop.
