

Paper View

Touch anywhere on the grid on the paper. A note is added as a hole is punched in the paper. There is also sound, so you can feel as if you are writing a real sheet music.

Paper View

- Switch to eraser mode to erase (fill in holes) notes.
- Undo mode undoes the last added note.
- You can play and listen to music through the Play/Stop Sequence.
- When Snap to Grid mode is turned on, notes are entered to fit the grid, and when off, notes can be added in any horizontal position regardless of the grid position.
- Expand Paper lets you add as many notes as you want. On the other hand, Shrink Paper lets you cut out extra sheet music you don't need.
- You can change the BPM and Incomplete Measure whenever you want.
